DETAILED ACTION

Reasons for Allowance

Claims 1 and 2 are allowable in view of Applicant's remarks on page 5 of the Amendment filed 6/9/2004. The examiner notes that claim 1 is drawn to the combination of the diffractive optical element having 100% design diffraction efficiency and the three monochromatic light sources.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Kobayashi (US 6,621,640): Kobayashi discloses an optical system which optimizes the diffraction efficiency and suppresses the generation of flare.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Fayez G.
